

## ***ENVIRONMENTAL POLICY***

We, as **Bimed A.Ş.**,

In order to minimize the damage on environment and to leave a healthy, clean environment to the future, our environmental policies are

- to fulfill the compliance obligations and ISO 14001 Environmental Management System requirements,
- to preserve the environment by decreasing the exhaustible resources and energy consumption,
- to decrease the composed wastes quantity as far as possible,
- to sort the wastes at their sources, provide recycling and proper disposal by this means prevent the environmental pollution,
- to create and generalize an environmental awareness at company and suppliers,
- to be in touch with related parties that could be effected from our environmental performance,
- to ensure continuous improvement of environmental management system to enhance environmental performance.
